Concordia University Irvine Master of Business Administration (MBA)

Many of our MBA students know at the outset that they have what it takes to become successful business leaders or entrepreneurs. They're just not sure how to harness it. What they need is direction from someone who's been there, to help develop and bring their gifts to fruition. That's where we come in. At Concordia University Irvine, our MBA program has a history of coming alongside such students, regardless of life stage or occupation.

"My husband and I landed on Concordia's MBA program because it checked every single box: it was affordable, close to us, had the accreditations we wanted, and small class sizes. To this day, we can't praise it enough." Jamie Buda MBA '18

This is a program that will help you explore and refine your talents. Whether you want to advance in an established firm or leap into your own startup, you'll learn ways to make it happen. Our flexible and comprehensive program allows you to immediately start applying your education by concentrating on the practical side of business, without ignoring management theory.

Most importantly, you will discover a cooperative and collaborative environment in our classes. Students develop bonds that help advance and last throughout their careers. And Concordia MBA professors teach from experience. In fact, when they're not in the classroom, many are running successful businesses of their own throughout Orange County and the greater Los Angeles area. You will learn from instructors who want to share their insights by mentoring the next class of emerging business talent. They're here to help prepare and equip you for your career path, wherever it leads.

Professional Calling

As a Lutheran Christian university, our MBA courses are taught by faculty who understand God's gifting of individuals. They are dedicated to helping you fulfill your professional calling.

"It was a really good fit because Concordia is focused on having professors and students in the business world, and using that to learn. As a Christian university,

having those values behind the education of business is important to me as well." Michael Simons MBA '18
